

Conundrum Holdings Pty. Ltd.

Conundrum Holding's statement

Conundrum Holdings, a family owned and operated business in Victoria, accepts the recommendations of the independent Planning Panel, made following full and appropriate consultation with the community and planning authorities.

Our proposed North Central Quarry is located within a designated Extractive Industry Interest Area itself nominated in 1996 and has been identified in numerous reports and findings since 2009. The quarry application was statutorily endorsed in 2015.

Quarrying is an essential temporary land use to maintain our community's standard of living. Each person in Victoria uses on average 8-10 tonnes of quarry products every year.

This significant basalt resource offers a choice of supply to local and Victorian small, medium and large-scale businesses, whilst we coexist with and continue to support the economic growth of our community now and into the future.

We are proud of the quarrying industry, its contribution to our State, and look forward to continuing working with our local communities to generating choice, employment opportunity and build an example for current and future generations to aspire to.

Conundrum has been proud of our transparency throughout this process. As such information has always been available and remains available on our website:
